

Recruit, Recruit, Recruit!

On 7th June **1,245** patients had been randomised into the trial, but with the 31st August approaching we need to keep up the high recruitment seen last month (51 patients!) in order to get as close as possible to our target of 1500.

Collaborators Meeting - Reminder

The preliminary results will be presented at the collaborators meeting on the afternoon of **30th November 2011** in London. The programme and official invite will be sent nearer the time.

Amazing Site Achievements To Date

Birmingham - recruited most patients in 1 month - 14, more than double their target

Bristol - recruited the 500th patient

GOSH - most patients recruited in one day - 4

Royal Brompton - randomised the highest proportion of cardiac patients

Liverpool - highest number of individuals randomising - 18

Manchester - highest recruitment for a non-cardiac site

St Mary's - only site to have had a monitoring visit without any CRF queries

Southampton - recruited the most patients over the weekends - 31

Stoke - a great non-funded site

Leicester - survived an R&D audit

St George's - was up and running within 2 weeks

Leeds and **Sheffield (now closed)** have also made significant contributions to the trial recruitment.

Recruitment - Target 1500

CRF Completion

With the end of the trial fast approaching could all sites please keep on top of the CRF completion and clear any backlog of CRFs **by the end of July**.

Note - During July and August Helen will be visiting all the sites to do a pre close out visit.
